Bio·IT World
Next-Gen Technology • Big Data • Personalized Medicine

EDITORIAL CALENDAR

	Editorial Coverage	Industry Events	Inside Bio-IT World (eBook)
July 2016	Knowledge Management/Mining		
August 2016	Cancer Genetics and Diagnostics	NextGen DX Summit (Aug. 23-26)	
September 2016	Genomic Data Analysis	Discovery on Target (Sept. 19-22)	The New Age of Pathogen Genomics
October 2016	Best Practices Call for Entries		
October 2016	Cloud Technologies		
November 2016	Systems Biology	Supercomputing 15 (Nov. 3-18)	
November 2016	Gene, Protein, Metabolite Networks	Advances in Prenatal Molecular Diagnostics (Nov. 29-Dec. 1)	
November 2016	Gene, Protein, Metabolite Networks	Reproductive Genetic Diagnostics (Dec. 1-2)	
December 2016	IT Hardware: Processors and Supercomputers		
December 2016	Computer Architecture		
January 2017	Personalized and Precision Medicine		
January 2017	Patient Stratification		
February 2017	Open Science, Publication, Data Sharing	Molecular Medicine Tri-Conference (Feb. 19-24)	Making Genomics Work for Everyone
February 2017	Genomic Data Standards	Molecular Medicine Tri-Conference (Feb. 19-24)	Making Genomics Work for Everyone
March 2017	Microbiome, Virome, and Metagenomics		
April 2017	Discovery Informatics	Medical Informatics World (April 4-5)	
April 2017	Discovery Informatics	Prenatal Molecular Diagnostics (April 4-6)	
May 2017	Best of Show Winners	Bio-IT World Conference & Expo (May 23-25)	An Explosion of New Sequencing Technologies
June 2017	Best Practices Winners		
June 2017	Metabolomics & Proteomics
